PRESIDENT'S MESSAGE

John Ostendorf, R-518

Dear fellow sales tax token collectors,

I hope this letter finds you well. A lot going on this quarter. This is an election year for the ATTS. In this issue you will find a call for nominations. All positions are for three years (2023-2025). The at-large position #2 has been vacant for a while and I would like to see it filled. Both at-large positions are board seats that are simply asked to represent the interests of the membership in ATTS board meetings. We only have a few "meetings" per year, always done via email, in order to keep the society running. So please consider running for this (or any other position you may be interested in) and I promise not to work you too hard.

I will run again for President, but if someone else would like to serve, I would welcome that and would be happy to help the new President. I have been in this position for 18 years (longer than FDR served), but I am willing to continue because I truly love the ATTS and believe in what we're doing as a small "niche" numismatic organization.

One of the best parts of my job is awarding the Literary Award. The 2021 Literary Award goes to John Phipps for his article, "Head Tax Tokens" that appeared in the second quarter 2021 Newsletter. In appreciation for his article, John received an award certificate and R-10 Missouri counterstamp denoting his award. Thanks John! Happy collecting, John

LETTERS TO THE EDITOR

BILL at: Wjmhands@gmail.com

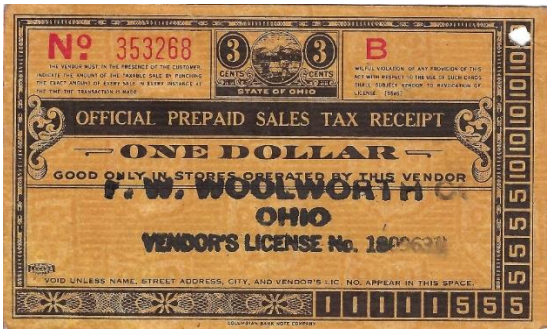
Congratulations to John Phipps for being the recipient of the 2021 Literary Award. I enjoyed his article and would like to see more of the members submit articles this year. Joseph McCarthy has shared his latest purchases and they are very interesting. Raybon Gilbert has submitted several interesting sales tax items and wants to know if other members have the pinbacks, let me know if you have one of them. I assume other members have purchased sales tax items and I would like to show them off in the newsletter so please send them to me. John Ostendorf increases our knowledge by identifying a previous unidentified token.

CALL FOR NOMINATIONS

All board positions – President, Treasurer, Editor, and the two At Large board positions are up for election for a term serving 2023-2026. Current officers are listed on the back page of the Newsletter and all have agreed to run for election and I would like to see someone fill the At Large position #2.

PLEASE NOTE: If you are emailing me, I would greatly appreciate it if you would supply **your full name** and membership number. I have received an email from "Jack" and I don't recognize the name off-hand or the email address either. So in order for me to list it here I have to go through my entire email address book looking for "Jack". Likewise, if you don't include your return address on a snail mail, please give me your full name on the written enclosure. Thanks for saving me a little time. I do appreciate EVERY contact but this identification would also be appreciated. **My sincere thanks, as always.**

JOSEPH MCCARTHY (L-616) WRITES: Here is my latest acquisition. An OH SP3B FWW Punch Card, with a small Ohio map (the next book out on Ohio will have these added to differentiate).



I just received a parcel with my latest acquisitions, acquired through private negotiations for an entire collection. I paid $200.00, plus shipping for a collection that included the Five Ohio Sales Tax Punch Cards in the attached scans. And an original box that was used to ship Sales Tax Stamps (see scan). Also, included were about 60 - 70 entries, complete Vendor and Consumer, tax stamps.

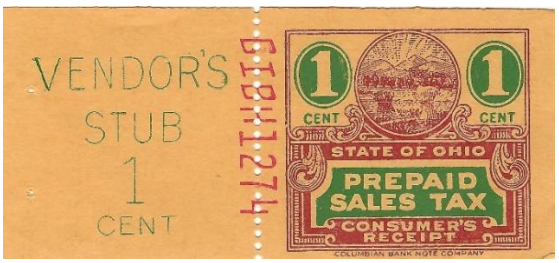
Just received the following. I won them on E-bay for $5.00. The first is an Ohio S50, Reserve Litho and the second is an Ohio S101, Reserve Litho.

Attached are scans of two Michigan Sales Tax Patterns, P11 and P13. I purchased them through a private sale, $100.00 postage included for the two.

These item were acquired through bidding on E-bay, six bidders. It was fierce bidding and at the end I raised my bid to what I thought would be the final bid. I was wrong, my earlier bid of $14.50, plus $2.50 postage/shipping was the winning bid.

1. 89 Ohio Sales Tax stamp partials, a combination of both Vendor and Consumer halves
2. 1 Ohio S49 Reserve complete
3. 14 Ohio S73 Reserve Complete, all Sequential
4. 1 Ohio S77 Reserve Complete
5. 1 Ohio S85B Columbian
6. 1 Ohio SPC5 THM, Thompsons Restaurant.



Here are the Seventeen SPC's I purchased in one "Buy It Now" or "Best Offer" on E-bay.

I received the lot that I purchased on E-bay. The listing read "Lot of 50 US Postage Tobacco Tax, Sales Tax, Wine Tax, Consumer's Receipt Stamps." Of interest was Sales Tax and Consumer's Receipt Stamps. I didn't hesitate because I was afraid someone else would buy the LOT before I could enter information. Of those items of interest were a number of early Consumer Receipts, but they were mostly affixed with stamp hinges. The main interest was the two sequential MPC's (Merchant Punch Card) consumer halves. They had the entire 3 cent stamp affixed on the reverse. NONE of the numbers were punch cancelled. But best of all was the name, one not listed in Monte's book as either an MPC card or a SPC card. They are for "Heintzman Pharmacy" in Cheviot, Ohio. Last item to mention was the listing. Free Shipping and It had a "Buy It Now" or "Make Offer". I would have easily made an offer at $100.00 or more, but not wanting to take a chance of losing it I accepted the "Buy It Now" price of $ 9.95.

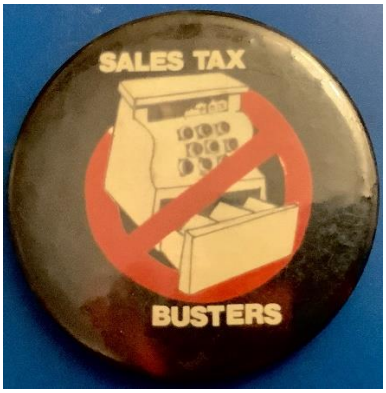
RAYBON GILBERT (R-569) WRITES: I own one of the black background/white lettering NO SALES TAX from Oregon pin backs. I suppose mine reveals that there are at least Three (3) of them for sure!

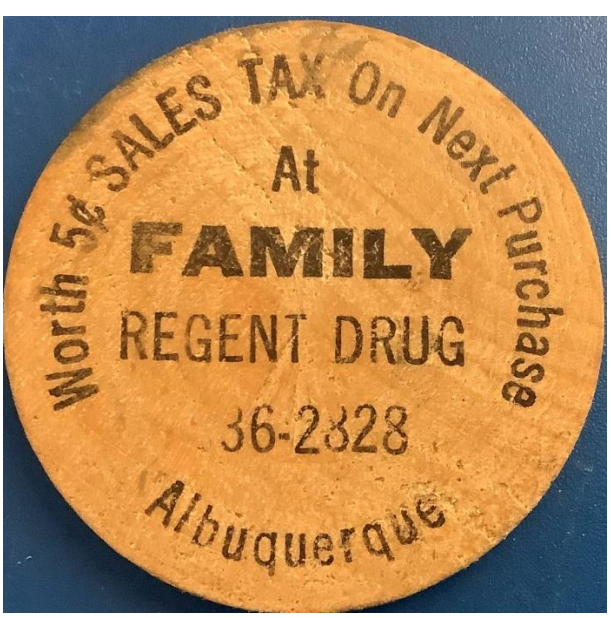
As a follow up to our conversation on the previous Oregon pinback, here is a recent acquisition of mine discussed in a 2015 ATTS NEWS LTR article. This Oregon token is 78 mm and rarity 10 unless anyone else has one. Perhaps we could canvass our membership to see if anyone has one has one of these gems? The reverse is blank.

(Please let me know if you have this pinback. The newsletter allows collectors to share information. Ed.)



I recently acquired a NE NF_1 from a token collector in Nebraska for $10.00. The article in an ATTS Supplement sheet by James Calvert indicated the first report of this token in 3/3/10. It is indeed aluminum from circa 1967. I have attached three photos that confirm the size of the token to be 26 mm. This measurement was not available at the time of James' report. This is the same size of the 10 cent specimen reported by Monte Dean. I have yet to find any evidence of a 25 cent version.

Good ole Regent Drug pops up again beyond Supplement Sheet No. 9. and NM R1. The attached pics show the Obverse of the Wooden Token to be identical to the R1, however the Reverse shows an Indian facing left and has two color print. I probably would have catalogued the R1 as a local "Sales Tax Token", L1 as the piece depicts Albuquerque and the 5 cents sales tax….not a Good For Token in my opinion. In any case, here is a new find for the powers to be to produce an appropriate Supplement Sheet. How fun this stuff is……by the way, this piece is 40 mm. wide and 2.5 mm. thick.



I kinda got in to the "America's Whitespot" over the last few months, and I acquired an interesting Letter to go with Monte Dean's specimen NE RM-8A and 8B. As you may already know, the Federal government hired a boatload of private pilots during the Air Mail Campaign of 1938, so small rural towns could receive or have delivered mail by airplane. Nebraska had four districts for their air mail distribution: Omaha, Lincoln, Grand Island, and North Platte. These became the established stops for the letter collection. There were two approaches used to deliver the mail…one was for a pilot to fly from his location and hit little towns along the way to one of the four district airports. Another was to have airplanes start at one of the four hubs, fly to 4 or five towns, pick up the mail and return to the hub city with its cargo of letters. Local airports were used if they existed, otherwise a town might establish a hasty airstrip in a cleared field or a back road. My specimen has the new 6 cent multicolor Air Mail Stamp on it. The lower left corner shows the small town of David City (pop. 2272) and the county seat of Butler County, as the pick up town with the hub city as Omaha. Another unique item on this letter is the hand stamp on the reverse of the letter. Local stamps were used to show a visual on that community's industry or trade for which the town was known….in this instance…farming. So there you have it. Another fun run back to the 1930s.

NORMAN PETERS WRITES: Thanks for all the info on those plastic tax tokens, truly appreciated it. I gave up on the multi-shade pieces, decided one typical red, green, grey, etc. is enough.

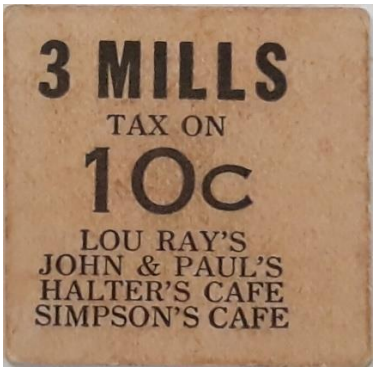
Did meet a fellow who worked for AC Gibson Co, a chemist who was involved in the "injection process" of making plastic tokens, he explained how colors change due to exposure to sun, various atmospheres, heat and even human body excretion. Learned what the small spurs on the rim of plastic pieces are. He called the "pontils". It's where they were separated from the "injection flow" tube in the token molds. He had several intact strips of red "Darto" markers. There were 25 on each, 12 on one side, 13 on the other. He told me that the colors of the strips varied after they were removed from the molds! (Darto was a bingo like game played at summer events).

I was surprised how well the colors came out in the ATTS Newsletter. I searched an almost full plastic 5-gallon pail of tax tokens that sat under my coin shop counter about 10 years ago, all but about 200 transit tokens placed there by mistake were tax pieces. I was surprised by number of supposed rare items and lack of many common pieces. My shop was in Lancaster, just east of Buffalo NY, so they all came to me in lots, collections, etc. Not used here.

A list of pieces I would like to acquire is enclosed. Do you have any for sale? Sorry for the poor printing and spelling, at 82 had a stroke last year and it screwed me up!
(The letter was very easy to read. Norman's want list is in the Trading Post. Ed.)

NEW FIND IDENTIFIED – GOLCONDA, ILLINOIS

By John Ostendorf, R-518



I have finally been able to identify a fascinating token that I have owned for about 15 years and about did back flips when I finally figured it out! I forget when exactly I bought this token, but Monte Dean reported it in ATTS Newsletter #150 as Maverick-New Find #2 and was very excited about the fact that this token listed four different merchants. That in and of itself is very unusual, but I am more excited about how the denomination was expressed as 3 mills tax on 10c.

This token measures 31mm square on heavy buff cardboard and would have been issued during the chaotic period of around 1933 when the state sales tax was approved in Illinois, but the state had yet to issue tax tokens. I believe it is Rarity 10 (unique).

This token was issued for merchants in the tiny town of Golconda, Illinois. Golconda is currently a town of about 650 people in far-southern Illinois on the Ohio River. It is far from any other decent sized Illinois town and about 20 miles upriver from Paducah, Kentucky. In the 1930's when this token was issued, the population was roughly double of what it is today at around 1,200 people. The entire town sits on only half of a square mile of land.

I believe Lou Ray's was named after Mrs. Lou Ray Barger who is found in the area and mentioned in a newspaper article in 1940. There are a lot of references in various records to people with the surname of Halter in Golconda. However, I could find no specific reference to a café or for one for Simpson's Café. That's not surprising though as a café would not need to do much advertising in a small town. I feel fortunate to find what little I could.
